Dear Mr. [REDACTED]

We have received your report of an aerial object which you could not identify on May 1, 1965.

The object you observed has been evaluated as a satellite. ECHO I passed to the north of St. Augustine near the zenith at 65 degrees elevation moving southeast at 9:04 PM on May 1.

For your information, the motion of satellites, while constant, may appear to waver, stop, or change in brilliance due to atmospheric conditions at the time of observation.

Thank you for reporting your observation to the Air Force.

Sincerely,

JOHN P. SPAULDING

Dear Sirs:

On the night of May 1, 1965. At 9:00 P.M. (E.S.T.) myself and three (3) other boys, saw a fast moving object travel across the sky. At first sight it was very bright and moving at high speed, and was thought to be a satellite, but then began to dim and slow down, then brighten & dim, it brightened once more then it dimmed and stopped completely and disappeared. WE viewed from 9:00 P.M. to 9:05 P.M. (E.S.T.)

Very truly yours,

DEPARTMENT OF THE AIR FORCE
